THE SNOW MIRACLE.

"The age of miracles," they say, "is past;
Christ walks no more upon the yielding wave,
Nor does the Spirit breathe, to bless or save,
On mortal man." And then the winter blast

Comes shrieking from beyond the sunset glow;
The dancing waves grow solid as a floor
To bear the burden of one wonder more—
God breathes upon the mist, and it is snow.

A YOUTH'S ADVENTURES.

Which, Whether Truth or Fiction, Are Decidedly Interesting.

When riding in the tram car through the wildest parts of Peckham Rye, writes a contributor to the London News, with a friend—we were bound on a journalistic errand—a bronzed young man of marine appearance jumped into the car and at once recognized my companion. Before we had gone very far I was deep in one of the oddest family histories. This new arrival, it seems, when a boy of 14, had been possessed by the fear of consumption, that fell disease having carried off his brother and threatening his father and mother. Accordingly he read every book that he could lay his hands on dealing with the subject, and, as the result of his reading, ran away to Bournemouth to be near the pines. Having no funds, he engaged himself to a local fishmonger, carrying his master's fish to the various customers. When the day's work was done, he shouldered a hammock which he had brought with him and camped among some of those pines for which that southern health resort is famous.

One night a gentleman, sauntering along, smoking a cigar, noticed him, and, being amazed at this "al fresco" bed, entered into conversation with him. "Why, I know who you are," exclaimed the consumptive youth at last. "You're Mr. Louis Stevenson, the man who wrote 'Treasure Island.'" "How do you know?" said the gentleman. "Because I deliver you fish. You live at Skerryvore." "So I do," replied Stevenson, for he it was sure enough. "But you don't talk like a fishmonger's boy." "No more I do," replied the boy, and he then poured his strange secret into the novelist's ear, which was sympathetic enough, you may be sure.

The result of this odd meeting was an invitation to breakfast. "Oh, and I did eat," said the young man. He told the story so loudly that the whole train laughed. "And the servants couldn't make it out at all to see the distinguished author entertaining poor me. Then he went to Paris, and I never saw him again for a long while." The pines not proving strong enough, the strange youth was seized with a yearning for the scent of the eucalyptus and persuaded his friends to send him to sea. When he reached Sydney, he sold his outfit and ran away into the bush and lived in the open with eucalyptus galore. Thence, after many adventures, he sailed for the south seas and abode by reef and palm for many a long year.

One day when cruising as supercargo among the Gilbert islands, I think, a European swell in beautiful white duck, a great red sash and a spreading panama hat, with a peacock's feather in it, came aboard the schooner. "Good morning, Mr. Stevenson," said the supercargo. Mr. Stevenson looked and wondered who knew him in these faroff seas. "I don't know you." he said, shaking his head. "But I know you. Don't you remember the fishmonger's boy who ate such a big breakfast at Skerryvore?" "So I do. Well, the world is small indeed." And no doubt the two had pegs and tiffin—or whatever they call such things in the islands—together. What a strange, small world it is indeed! Well, one succumbed to the dread disease; the other is as hearty a fellow as ever I saw. It was a quaint, grim fancy to go dodging phthisis all over the world!—London News.

An Escaloped Fish.

An escaloped fish which Miss Parloa gives as an especial dainty at her cooking classes is made (the proportions are easily doubled for a larger quantity) from a pint of cooked fish, free from bones and skin, a teaspoonful of salt, one-quarter teaspoonful of pepper, a tablespoonful of butter, one-half teaspoonful of flour, 1½ gills of milk (this is a little less than a cupful) and 4 tablespoonfuls of grated bread crumbs. Season the fish with half the salt and pepper. Put a generous half of the butter in a small saucepan on the fire. When it is hot, add the flour and stir till the mixture is smooth and frothy. Boil up once and stir in the rest of the seasoning. Put a layer of the sauce in a small baking dish, alternating with the fish, having sauce on top. Sprinkle over with the bread crumbs and dot with the rest of the butter. Bake in a moderately hot oven 20 minutes. The caution was added that any dish made with sauce and crumbs needs that the heat should be moderate at the bottom and strong at the top. The difference between dried bread crumbs and stale bread grated was also accentuated. In this dish the latter is obligatory.—New York Post.

Composer Tours.

English papers announce the death, after a long illness, of Berthold Tours, the well known musician and composer. Mr. Tours was a Dutchman by birth, having been born in Rotterdam in 1828. He studied at Leipsic and Brussels, went to England in 1861 and for a good many years served as a violinist in Costa's orchestra. For the last 19 years, however, he had occupied the responsible post of reader and editor to the great firm of Novello & Co., in which capacity he did an immense amount of useful work in the "reduction" of orchestral scores to their pianoforte form. He was also a voluminous composer of graceful violin pieces, songs, hymn tunes, anthems and church services.

AMY ROBSART'S SONG.

From London town my lover came.
Robin a Dudley was his name.
I was a rose, a rose, said he,
And gathered me from off my tree.
I was a rose, most fair and red.
I am a rose, whose sweets are shed.

I would my love from London town
Had never lightly ridden down.
Were there no roses there that he
Must come and pluck and shatter me?
My leaves are scar that were so green.
My leaves are wet with tears of teen.

Would God that I had never met
My lover, that has heart to set
Against my breast so sharp a sword.
Would God, instead of belted lord,
That I had loved some meaner clay,
Who loved me on to judgment day.

From London town my lover came
And set a country heart aflame,
Then left it lone to quench or burn
Because a queen must serve his turn.
Nay, but what boots me my disdain?
Would God my love would come again.

MUSIC AND THE HAIR.

The Effect of Vibrations Upon the Covering of the Head.

In a recent scientific assemblage a discussion took place upon the influence of sleep in skin diseases. One of the gentlemen who took part stated in his criticism of the paper which had been read that one might as well talk of the influence of music upon the growth of the hair. It would seem that the suggestion of a possible connection thus thrown out in a jesting way has been taken seriously. At least a correspondent of Le Temps has made the discovery that music of certain kinds does in reality prevent the hair from falling, while that produced by certain instruments has the most disastrous effects in causing rapid development of baldness. He finds that while composers are as prone as others to lose their hair at an early age those who play their compositions upon the piano preserve, if they do not acquire, a luxuriant growth of hair. On the other hand, wind instruments, and especially the cornet and trombone, are fatal to hirsute adornment. The violoncello and the harp keep the hair in pretty well, but the flute cannot be depended upon to preserve a strong growth after the fiftieth year of age.

A number of pianists, including Paderewski, are cited in confirmation of the pronounced influence of piano music. It has been admitted for some time that music has a certain therapeutic worth, and it will be recalled that Dr. Ferrand presented a report to the French academy on the physiological influence of music, pointing out in what ways it could be employed with therapeutic aims. Subsequently Dr. Betzchinsky reported an instance of night terrors in a child of 3 years, who was cured by having played to it each night music of a calming nature written in a minor key. A test was made after a few nights by omitting the music, and that night alone the child had an attack.

It has not as yet been determined just what key is most favorable to the prevention of an early bald state. Probably a reasonable way of settling the disputed point would be to make a few experiments on dogs, thus proving a tolerance for different strains and avoiding the horripilation to which some patients of refined tastes might be subjected. Wind instruments are always dangerous if the hair has not a good hold, while stiff haired people can stand anything. Possibly a good rule for any musician would be as soon as he finds his hair falling that he should cease playing for others.—Medical Record.

A Bare Faced Fad.

The fashion of the smooth face continues to increase in popularity, and mustaches are daily sacrificed to a fad which is not so well adapted to every man as a great many men evidently think. The style came from England. It became so much the proper thing in England for men to appear without hair on their faces that it was finally found necessary to forbid the practice in the army, as the loss of whiskers was spreading so rapidly that there promised to be a beardless army in a short while. Unbecoming styles of dress are unquestionably accepted when they are the mode. But it was usually thought that the selection of a mustache or a smooth face was founded on a deeper consideration of what made a man look well or the reverse. But that discrimination has been swept away now by the enthusiasm with which the unshaved lip has been declaimed as the right style.—San Francisco Argonaut.

Mark Twain and Lincoln.

Perhaps it were as well, says Charles Miner Thompson in The Atlantic, to attribute the popularity of Abraham Lincoln to his jokes as the vogue of Mark Twain to his extravagant foolery. In the conventional sense, Mark Twain is no more a literary artist than, in the conventional sense, Lincoln was a gentleman. But, in spite of lack of polish, Lincoln was great. May not Mark Twain, the writer, in spite of his crude literary manners, be great also? The mere possibility ought to be enough in itself to secure him sympathetic and serious consideration.

Provoking.

Friend—Hello, Grumbleton! What's the matter, old man?

Grumbleton—Matter enough! I was in that collision on the railway the other day, and I'm blowed if I wasn't the only one in the compartment who wasn't injured, and I've insured in the Accidental for the last three years too. It's enough to provoke a saint."—Pick Me Up.

Some idea of the magnitude of the coal resources of Huerfano county, Colo., may be formed when it is stated that there are about 40,000 acres, and each acre contains 100,000 tons, or a total of 4,000,000,000 tons—an amount almost beyond comprehension.

Deafness is more prevalent in cold than in warm countries, the ears being sensitive to changes of temperature.

LEGAL.

Ordinance No. 53.

An Ordinance calling a special election in the City of Sonoma, submitting to the qualified electors of said city at said election the proposition to incur a municipal debt aggregating Twenty-two Thousand Five Hundred Dollars for the object and purpose of acquiring, constructing and completing a permanent system of municipal waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, to supply the City of Sonoma and the inhabitants thereof with a sufficient quantity of pure, fresh water, the cost of which proposed waterworks will be too great to be paid out of the ordinary annual revenue and income of said City of Sonoma; providing for the issuance of the bonds of said city for said amount if said proposition be accepted by the qualified electors thereof as required by law; prescribing the time and manner of holding such election, and the voting for or against the proposition to incur said indebtedness and otherwise providing for and regulating said election.

The Board of Trustees of the City of Sonoma do hereby ordain as follows:

SECTION I.

Whereas, It appears to the satisfaction of the said Board of Trustees, and is by the said Board hereby determined and adjudged that the said Board of Trustees, did by ordinance duly passed by a vote of more than two-thirds of all the members of said Board of Trustees, on the seventeenth day of March, A. D. 1897, in the City of Sonoma, at a regular meeting of said Board of Trustees, then and there duly held, determine and adjudge that the public interest and necessity of the City of Sonoma, demand, and the public interest and necessity of said city do in fact demand the acquisition, construction and completion by said city of a permanent system of municipal waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, wells, tanks and machinery for the same, and connected with the use thereof, to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water for domestic use, and for the use of the Fire Department, and for flushing sewers, sprinkling streets and other purposes; and did also in said ordinance determine, and do now determine, that the cost of the acquisition, construction and completion by said city of said system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, is too great to be paid out of the ordinary annual income and revenue of said city; that said Ordinance No. 52, so passed as aforesaid, was thereafter and on the seventeenth day of March, A. D., 1897, duly approved in writing by the Executive of said City of Sonoma, viz: by the President of the said Board of Trustees; and that said Ordinance No. 52 was thereafter in accordance with the order and direction of said Board of Trustees, by the City Clerk caused to be published, and was duly published as provided by law, for two weeks consecutively, to wit: Commencing on the 20th day of March, A. D., 1897, and ending on the 3d day of April, 1897, in THE SONOMA INDEX-TRIBUNE, a weekly newspaper of general circulation published in the said City of Sonoma, and as often as said newspaper was published during that time, to-wit: On the 20th day of March, 1897, the 27th day of March, 1897, and on the 3rd day of April, 1897, such dates being the days of publication of said newspaper; and whereas said Board of Trustees did, by resolution duly passed by the vote of more than two-thirds of all the members thereof, authorize the Committee on Water Works to secure the services of a competent engineer to assist them in their efforts, and whereas said committee did authorize, direct and employ Otto Von Geldern and C. E. Grunsky, competent civil engineers, who had theretofore had successful experience in the work of the acquisition, construction and completion of permanent systems of waterworks to make, prepare and submit to said Board of Trustees plans and estimates of the cost of the acquisition, construction and completion of a permanent system of waterworks to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water; that the said Otto Von Geldern and C. E. Grunsky did make, prepare and submit to the said Board of Trustees plans and estimates of the cost of such a system of waterworks; that the said Board of Trustees did, by resolution duly passed by a vote of more than two-thirds of the members thereof, receive, accept and approve said plans and estimates; that as shown by said plans and estimates and as is now hereby determined, the maximum cost of the acquisition, construction and completion of a permanent system of waterworks, including all necessary lands, rights of way, waterrights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, will amount in the aggregate to Twenty-two Thousand Five Hundred Dollars; that the entire assessed value of all the real and personal property of and in said city is not in excess of three hundred and twenty-five thousand dollars; that the entire annual income and revenue of said city has hitherto been and now is the sum not to exceed Two Thousand Dollars; that there is now no outstanding, unpaid indebtedness of, or due from, said city; that the cost of the acquisition, construction and completion of said system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, will not exceed and will be less than 15 per cent. of the assessed value of all the real and personal property of and in said city.

SECTION II.

Now, therefore, in consideration of the premises, and in pursuance of the acts, ordinances, resolutions and proceedings aforesaid, and of the laws and statutes in such cases made and provided, a special election is hereby ordered and called to be held and conducted in and for said City of Sonoma, California, at the time and in the manner hereinafter fixed, designated and described; at which special election there shall be submitted to the qualified voters of the said City of Sonoma, and there is hereby submitted to the qualified voters of said city to be voted upon at said special election as hereinafter provided, the proposition of incurring a debt amounting to Twenty-two Thousand Five Hundred Dollars by said City of Sonoma, for the acquisition, construction and completion by said city of said permanent system of water works, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks, and machinery for the same, and connected with the use thereof by the said City of Sonoma and its inhabitants.

SECTION III.

The objects and purposes for which said indebtedness is proposed to be incurred are as follows: The acquisition, construction and completion by said City of Sonoma of said permanent system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks and machinery for the same and connected with the use thereof as aforesaid, and to do and perform all acts and things whatsoever necessary for the construction and completion of public waterworks for the said city and its inhabitants, and for the construction and completion of said waterworks, to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water for domestic use and for the use of the Fire Department, and for flushing sewers, sprinkling streets and other purposes.

SECTION IV.

The estimated cost of the acquisition, construction and completion by said city of said system of water works, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks, and machinery for the same, and connected with the use thereof and of all other things and acts whatsoever necessary for the proper use thereof, and of the whole of said contemplated system of water works is Twenty-two Thousand Five Hundred Dollars.

SECTION V.

That the acquisition, construction and completion of said system of water works by said city is necessary for the following reasons:

First—That said city has no water works in its possession or under its control.

Second—That the supply of water now and hitherto furnished to said city and its inhabitants is and for many years last past has been wholly insufficient for domestic use, for the use of the Fire Department, sprinkling streets, flushing sewers, and other great necessities, and is liable to give out entirely.

Third—That the water now and hitherto supplied to said city and its inhabitants by the existing water company is unsuitable for domestic use.

Fourth—That it is necessary and for the best interests of said city, and the inhabitants thereof, and the public interest and necessity demand that a sufficient supply of pure, fresh water be furnished said city and the inhabitants thereof for domestic use, sprinkling streets, flushing sewers, for the Fire Department and other great necessities.

SECTION VI.

It is hereby determined and declared that the cost of the acquisition, construction and completion by said city of said system of water works, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for supplying water, structures, aqueducts, reservoirs, wells, tanks, and machinery for the same, and connected with the use thereof is and will be too great to be paid out of the ordinary annual income and revenue of said city, and therefore it is necessary for said city to incur a debt amounting to Twenty-two Thousand Five Hundred Dollars, and to issue bonds of said city to pay for the cost of the acquisition, construction and completion of said system of waterworks and to pay the cost of all thereof.

SECTION VII.

That bonds of the city of Sonoma of the character of bonds known as "serials" to the aggregate amount of Twenty-two Thousand Five Hundred Dollars will be issued to pay for the cost of the acquisition, construction and completion of said system of waterworks if the proposition to incur said municipal indebtedness by said city for the cost of such system of waterworks be accepted by the qualified voters of said city at said special election; and said bonds shall be issued and made payable in Gold Coin or lawful money of the United States in the manner following: One-fortieth part of the whole amount of said indebtedness so incurred shall be payable each and every year on a day in each year, and at a place to be specified therein, and to be hereafter fixed by the Board of Trustees of said city. Said indebtedness, or any unpaid portion thereof, shall bear interest, at the rate of six per cent. per annum, which interest shall be paid in semi-annual installments, payable on certain days in each year, and at a place to be specified in said bonds and to be hereafter fixed by the Board of Trustees of said city.

SECTION VIII.

Said special election hereby called as aforesaid, shall be held on Monday the twelfth day of July, 1897, and shall be held and conducted, and the votes thereat received and canvassed, and returns thereof made and the result thereof ascertained and determined as herein provided and according to the law governing such elections in the City of Sonoma; and the polls for such election shall be and remain open from sunrise of the said twelfth day of July, 1897, to the hour of five o'clock in the afternoon of said day.

SECTION IX.

Notice of the said special election shall be published for not less than two weeks prior to said day of election, and after the final publication of this ordinance as hereinafter provided, in at least one of the newspapers published in the City of Sonoma, in accordance with the terms and provisions of the statutes in such cases made and provided.

SECTION X.

The ballots which shall be used at said special election shall be of the same character and form as ballots required by law to be used at municipal elections in said City of Sonoma, except as hereinafter otherwise provided. Each of said ballots shall have printed thereon the following caption or heading, to-wit: "MUNICIPAL TICKET," and shall have printed thereon and under said caption the following words, to-wit: "Proposition for incurring an indebtedness by the City of Sonoma to the aggregate amount of Twenty-two Thousand Five Hundred Dollars for the acquisition, construction and completion by said city of a permanent system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, aqueducts, reservoirs, wells, tanks, machinery for the same, and all other things necessary for the proper use thereof, as set forth in Ordinance No. 52 of said city." Underneath the last foregoing words upon each of said ballots shall be printed the following: "To vote for or against incurring said indebtedness stamp a cross (X) to the right of and against the answer you desire to give." Underneath which shall be printed in one line the following: "For incurring the indebtedness," to the right of which shall be printed in one square the word "Yes" with a blank square to the right thereof, and immediately below the same there shall be printed in one line the following: "For incurring the indebtedness," on the right of which there shall be printed in one square the word "No," with a blank square to the right thereof. Every voter desiring to assent to, and accept the said proposition for incurring the said indebtedess set forth herein shall in voting at said election stamp a cross (X) in the blank square to the right of the word "Yes" printed upon his ballot as aforesaid. And every voter desiring to reject the said proposition of incurring said indebtedness shall in voting at said election stamp a cross (X) in the blank square to the right of the word "No" printed upon his ballot as aforesaid.

SECTION XI.

The place of voting at said special election shall be in the building known as the City Pavilion, situated in the public Plaza in said City of Sonoma; and the officers to conduct said election are respectively defined, designated, selected and appointed as follows, to-wit: Judges, L. Litzius and A. Bulotti; Inspectors, V. Jensen and J. D. Wagnon; Ballot Clerks, Jas. H. Albertson and Peter Keil; Tally Clerks, L. Breitenbach and H. C. Lutgens. In case any of the officers above appointed to conduct said election do not attend at the opening of the polls on the morning of the election, the electors of the said city present at that hour may appoint or supply any competent person from among themselves to fill the place of such absent member thereof.

All persons qualified by law to vote at municipal elections in said city shall be qualified to vote at said special election.

XII.

As soon as the polls are finally closed at said special election, the officers of election shall canvass the votes cast at said special election for and against incurring said indebtedness hereinbefore mentioned, as nearly as practicable in the manner provided by law for canvassing votes for municipal officers at elections held in the city of Sonoma. The returns of said special election shall be made out and signed in the usual form by the said officers of election, and shall be deposited with the City Clerk of said city together with the ballots cast at said special election.

The Board of Trustees of the City of Sonoma shall, as soon as the said returns and ballots have been deposited with the said City Clerk as aforesaid, canvass the returns in the manner provided by law for canvassing the returns of elections of municipal officers in said city. If, upon the canvass of said returns as aforesaid, it shall be ascertained and determined that at least two-thirds of the qualified voters of said city voting at said special election have voted in favor of the said proposition for incurring the said indebtedness, then bonds of the City of Sonoma, in the sum of Twenty-two Thousand Five Hundred Dollars, shall be issued by said city as by law provided, and hereafter prescribed by the said Board of Trustees of the City of Sonoma.

SECTION XIII.

Immediately upon the passage of this Ordinance by said Board of Trustees and the approval thereof by the Executive of said city, to wit: the President of the Board of Trustees, this ordinance shall be published once a week for two weeks consecutively in THE SONOMA INDEX-TRIBUNE, a weekly newspaper of general circulation printed and published in said City of Sonoma, and the City Clerk of said city is hereby ordered and directed to cause such publication of this ordinance to be made as aforesaid.

Passed this second day of June, 1897, by the following vote:
Trustee Seipp, voting aye.
Trustee Hartin, voting aye.
Trustee Modini, voting aye.
Trustee Bulotti, voting aye.
Trustee Poppe, voting no.
Approved this 2nd day of June, 1897.
J. H. SEIPP,
President Board of City Trustees.

INDEX-TRIBUNE

SONOMA, JUNE 12, 1897.

H. H. GRANICE - - - - - - - - - - - EDITOR

THE question of water or no water will be decided by the voters on Monday, July 12th.

IF you want Sonoma to go ahead do not listen to a few soreheads who are mad because they cannot run the town. Think for yourself and vote for the water proposition.

WE rise to remark that there are some people in this town who ought to pay their poll tax before kicking against the water proposition for fear of being taxed. Bah!

THE fire last Saturday, following so closely on the one of two weeks ago, ought to be a warning to Chief Poppe of the Volunteer Firemen to stop kicking against a water proposition, the principal aim of which is to protect this town from fire.

THE high standing in this community of City Trustees Seipp, Hartih, Bulotti and Modini, ought to be sufficient guarantee that the water proposition is safe in their hands, the cry of a couple of adventurers to the contrary notwithstanding. The Trustees and their attorney, F. T. Duhring, are all high-minded and honorable gentlemen. They have lived in this community for years and enjoy the confidence and esteem of our people. Can those who have recently set themselves up in this community to pass judgment upon them say as much?

AT a meeting of the Fourth of July Committee held last Thursday evening the very wise suggestion of voting for a Goddess of Liberty to reign at the coming celebration was made by one of the committeemen, but for some reason the matter was voted down without being given the consideration.

It appears to us that a Goddess of Liberty would add very materially to the success of our celebration, and the selection by popular vote would not only create a wide spread interest in the community, but would also be an important factor is swelling the finances. At Santa Rosa and other towns, where carnivals have been held the past few years, the Queen of the Fiesta is always chosen in this way and success is invariably the result. If the matter was given a start at this place and votes sold for five cents each we feel sure that great interest would be manifested and a neat sum realized.

Let the committee re-consider this important question at their next meeting.

New Advertisements.

Everybody is going to the concert.

Look at the change in Scott & Veal's adv. Correspondence solicited.

Don't fail to read Ed. Mills & Co's new adv. You will surely need something from their store when in Petaluma.

When you break anything on your bicycle get it repaired at P. Jos. Steiger's, Main street, Petaluma. Read his new adv.

Bauer & Schluckbier make their initial bow, in our advertising columns this week, to the people of Sonoma and Vallejo Townships.

The enterprising firm of John Batto & Son, in addition to growing, drying, packing and shipping fruit, have added to their plant a box factory and are now prepared to supply our orchardists at short notice with all kinds of fruit boxes. See adv in another column.

Your attention is called to Nauert's new adv., found in another column. These gentlemen are among the most agreeable business men in all Petaluma and will sell their goods cheap. Call and see for yourselves.

At the New City Store, located in the Mutual Life Building, Petaluma, you will find that the very lowest prices prevail. It is a new store with H. Samuels, a jolly and accomodating gentleman, in charge. Call and see.

Mr. A. Kahn of Petaluma is well-known in this valley as a reliable and honorable gentleman. He advertises in this weeks' INDEX-TRIBUNE that he sells all kinds of produce and makes a specialty of butter and eggs, which he buys and sells in small or large quantities.

SCHELLVILLE SIFTINGS

Mr. and Mrs. C. Homan visited friends at Embarcadero this week.

Jas. B. Small, "Sonoma's sweet songster," is rusticating on the Polpula rancho.

John Mallon and Chas. Ohm visited Lakeville on business last Thursday.

Mrs. M. Donahue was called suddenly to San Francisco last Thursday on account of the illness of her little grand-daughter, baby Burns.

A number of musically inclined young people of Schellville and vicinity entertained Mr. and Mrs. Chas. Ohm last Wednesday at their home with vocal and instrumental music.

Miss Josie Kiser, on Friday evening last, entertained on the baseball grounds on the Schell place, the Schellville Athletic Club, in honor of their victory over the Sonoma base ball nine. Lemonade, cake and other goodies were served. About forty people were present, the majority being ladies and children.

A party of hay-balers, hailing from Penn's Grove, camped opposite Del Sherman's farm, near El Laurel, last Saturday. After they left Mr. Sherman discovered that they had raided his hay field, and after helping themselves to all the feed they wanted, purloined a single tree and a whip. Mr. Sherman went to Sonoma to swear out a warrant for the arrest of the men, but the offense having been committed in Vallejo Township, Judge Cheney had no jurisdiction. Subsequently Mr. Sherman hunted the offenders up and compelled them to pay for the stolen property, after which they were allowed to depart, as they could not be arrested without a warrant issued by a Justice of the Peace in Vallejo Township.

GLEN ELLEN ITEMS.

A wedding at the Home is announced for the near future.

Geo. W. Beatty has added new fixtures to his meat market.

The weather the past week has been quite warm, the thermometer reaching 100 degrees.

Wm. Vandewater has opened a shoe shop in the building formerly occupied by G. D. Lobdell. He reports business lively.

Wm. Ping and family will soon remove to Eldridge, where they will reside permanently.

Granville Harris, the popular stableman of Sonoma, will take a party of campers to Santa Rosa next Sunday.

Wm. Munfrey, with a number of men, is hard at work on the Hilton bridge. He expects to have it completed this week.

Dr. C. C. O'Donnell has constructed a swimming pond in the creek and bathing is the favorite pastime of the campers.

H. R. Martens, Frank Young, Wm. Meyer and A. E. Martens took a flying trip through Napa Valley last Sunday. As no two tell the same story we are unable at this time to give a description of their trip.

Scrofula Swelling

On the Neck and Great Weakness Caused by Impure Blood—Was Constantly Growing Worse.

"When my son was 5 years old he was in very poor health and we could get nothing to relieve him. At the age of 7 years he began to complain of soreness on both sides of his neck and soon lumps began to gather on one side and grew to half the size of an egg. We then became more uneasy and began to doctor him for scrofula. He gradually grew worse, however, until at the age of twelve years we had lost all hope of his recovery. He became so weak he could sit up but a few minutes at a time. My wife saw Hood's Sarsaparilla recommended as a great blood purifier and we sent and got a bottle. We began giving our boy the medicine according to directions and it was not long before we saw he was improving. He continued taking it until he was in very good health. He is now 13 years old and is well. We recommend Hood's Sarsaparilla for all troubles caused by impure blood." S. M. SILVER, Grouse, Oregon.

Tossed on the Foaming Billows.

You may never have been, but if you cross the Atlantic, no matter how smooth the watery expanse, without sea sickness you are—well, a lucky voyager, that is all. Old tars who have spent their lives on the ocean waves, who were almost born, so to speak, with their "sea legs on," suffer now and then from sea sickness in very temestuous weather. Sea Captains, tourists, commercial travelers and yachtmen say that there is no finer safeguard against nausea than Hostetter's Stomach Bitters, and it has been equally reliable as a preventive by invalids who travel by steamboat and railroad, and who sometimes suffer so much in those conveyances as ocean travelers do in steamships. Biliousness, constipation, sick headache and disorder of the stomach caused by oppressive climatic influences or unwholesome or unaccustomed food or water, always yield to the Bitters speedily. This popular medicine also remedies rheumatic, kidney and nervous disorders, and the infirmities incident to increasing years.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

LOCAL HAPPENINGS.

FOURTH OF JULY.

To Be Celebrated in Sonoma on Monday, the 5th.

At a meeting of the Fourth of July Committee, held in the City Pavilion last Thursday evening, it was decided to celebrate on Monday, July 5th.

The Programme Committee, F. T. Duhring, Chairman, reported that they had selected Benj. Weed to act as orator, Dr. H. H. Davis to read the Declaration of Independence, and Miss Claire Hope to sing the "Star Spangled Banner."

The Finance Committee, Robt. Hall, Chairman, reported that they had collected in about two hours $100 and that almost everybody had willingly responded. This committee hoped to secure sufficient funds to enable the citizens of the town and valley to celebrate in a becoming manner.

Jas. H. Albertson was selected to act as Grand Marshal.

The Committee on Music, Dr. C. Walliser, Chairman, asked for further time in which to secure a brass band for the day and music for the entertainment and ball in the evening.

The Secretary was instructed to invite the Firemen and civic societies to participate in the parade, which will be one of the features of the day.

The meeting then adjourned to meet on Tuesday, June 15th, at 8 P. M.

The following ladies have been appointed as a Committee on Entertainment: Mrs. Carl Walliser, Miss Dora Howe, Mrs. H. H. Granice, Miss Agnes Duhring, Miss Mattie Goodman, Mrs. H. Appleton, Mrs. H. H. Davis, Miss Clara Cheney, Miss Bertie Aguillon, Miss Theresa Fochetti, Mrs. Thos. Erskine, Miss Louisa Rufus, Miss Eva Prunty, Mrs. Chas. Ohm, Miss Edith Gillan, Miss N. Haraszthy, Mrs. Emparan.

The meeting of this committee will take place next Monday afternoon in Union Hall at 2 o'clock, and not to-day as at first announced.

New Comers.

Mr. and Mrs. Warren E. Benton of Haywards, Alameda county, having decided to locate in Sonoma Valley have purchased the southern portion of the D. Calloway place, comprising six acres. Mr. Benton is a noted fancy pigeon and poultry raiser and will engage in that business on his new purchase. The coming to this valley of Mr. and Mrs. Benton will be a very desirable acquisition to our town. Mr. Benton was for a number of years connected with the California Press Association. The transfer of the property was made through the real estate agency of D. H. Twing.

High School Trustees.

At the school election held on Friday of last week the following High School Trustees were elected: San Luis—Robt. Howe. Watmaugh—Geo. O. Campbell. Huichica—T. S. Glaister. Dunbar—Frederick Quien. The Trustees of the High School will now be composed of the following gentlemen: Robt. Howe, Fred'k T. Duhring, Geo. O. Campbell, Prof. Cromwell, J. W. Hilton, Ed. Steiger, Jos. Dowdall, T. S. Glaister and Fred'k Quien.

Special Meetings.

A series of special meetings will begin in the M. E. Church Sunday morning, June 13th. The meetings will be in charge of the Rev. E. E. Thompson, late of Oregon. Rev. Thompson closed a meeting in Sebastopol a short time ago, wherein there were about ninety conversions. He is a man of marked ability and exceptionally strong personality. There will be meetings every night next week at 8 o'clock.

STEIGER VS. MARTI.

Judge Dougherty Decides the Vexatious Suit in Favor of Plaintiff.

The civil suit of Steiger vs. Marti, which has been dragging its slow length along in the Superior Court of this county for several years, was decided last Monday by Judge Dougherty.

The law suit involves the small fraction of an acre of land, twenty-seven-hundredths of an acre situated near Schellville, and has been hotly contested on both sides.

The controversy turned upon the words "left bank." Plaintiff purchased land from Obed Chart and in his deed the land was described as "beginning at a stake on left bank of a certain slough three feet from a certain bridge, running thence along said left bank north, etc." The plaintiff claimed that when starting three feet from said bridge and running north the line moved on the east side of the narrow channel or slough, while defendant claimed that the left bank was the west side. The court held that the left bank of a running stream is the bank on the left hand as you go down the stream, and it is so authoritatively defined. The parties must be presumed to have used the word "left bank" in the common and popular sense. Judgment was ordered for plaintiff.

A Smash Up.

Wishing to be strictly up to date at the recent Penticost Festival at Petaluma J. Lopes, who resides at Penn's Grove, hired from the livery stable of Granville Harris of this place the finest vehicle in the county. It is a two-seated break with canopy top, large lamps and showy upholstery, and formerly belonged to the Graves estate, costing $800 when new. While going from the Lopes residence to Holy Ghost Church Saturday night, the rig ran off a grade in the darkness and upsetting, was badly wrecked. The vehicle was taken to Petaluma Monday in a dilapidated condition and is now at George Spotswood's shop awaiting repairs, which will cost about $50. The top and lamps are smashed, while the seats, springs and bed will have to be repaired.

Will Commence to Build.

Frank M. Ames of San Francisco, who recently purchased a small farm off Broadway in the southern limits of town, known as the Leiding place, has commenced to improve his purchase. One day this week sixteen thousand feet of lumber was received by Mr. Ames, who will immediately commence the construction of a cottage, barn, chicken houses, etc. He will engage in the poultry business, in which he has had considerable experience.

Get your reserved seats for the concert before it is too late.

Illness Caused by Mixing Cherries With Milk.

The eighteen-months-old daughter of Mr. and Mrs. Geo. W. Rodehaver of El Laurel had a very narrow escape from death last Sunday. It seems the little one had eaten some cherries, after which she drank heartily of milk. Soon after the child grew alarmingly ill and showed symptons of convulsions. A tub of hot water was quickly prepared, but none too soon, for the poor little sufferer was by this time writhing in terrible spasms and several times while in the bath she seemed to succumb, but after applying every known remedy at hand rallied and steadily grew better. After the child was considered out of immediate danger Mr. Rodehaver came to town, a distance of seven miles, for medical assistance, with the result that the little one is now entirely recovered.

Before our next issue the orchestra concert will be over and the people of the valley will have heard the new organization and will be convinced that music in Sonoma goes steadily onward and upward. We could justly claim at one time to have the best band in the State outside of San Francisco and now we have progressed from a band to an orchestra, a much higher musical form; and we expect to claim now the best concert orchestra outside of San Francisco. The orchestra is here to stay. It is in the field for money and fame and is likely to get both.

To Cecilia and the Class of '97.

The new moon came upon the night,
When thou with life wert met;
A silver crescent in the west,
A thread of light, it shone then set.

O! let thy life a beacon be,
As is the crescent moon;
Shine forth upon the dark of earth,
And may thy setting be too soon.

Make beauty, love and righteous truth,
The goal in all thy strife;
Be true unto thy own best self,
And then thy life is surely life.

ANOTHER GRASS FIRE.

Mrs. Haraszthy's Residence Narrowly Escapes Destruction.

A fire broke out in a large field in the northwestern part of town on Saturday evening at 7:30 o'clock. The fire bell alarmed the entire neighborhood and in a few minutes nearly every fireman and many citizens were promptly on hand to combat the flames and prevent them from spreading to the large barn and residence of Mrs. N. Haraszthy, the daughter of the late Gen. Vallejo.

A high wind was blowing at the time and the flames spread with lightning-like rapidity. As there was no water to fight the flames with the firemen did not bring out the engine and hose cart. They went to work bravely, however, with wet sacks and succeeded in saving the Haraszthy property. The damage was light and was confined to pasturage and fencing.

The firemen are unanimous in their praise for the assistance lent them by the good Sisters of Presentation Convent, who furnished them with a large number of sacks with which to put out the fire and rendered other valuable aid.

Electric Light.

A Plant to be Established at the Home.

At a recent meeting of the Directors of the California Home at Eldridge it was decided to put in an electric light plant. At the next meeting of the Trustees of the Home H. M. Kebbey, an expert electrician, who has been engaged to inquire into the cost, etc, will make his report. Mr. Kebby, accompanied by Judge Overton, President of the Board, visited the Home last Saturday with that object in view.

Work Has Closed on the County Roads.

No more work will be done on the county roads this month, and mayhap for some months to come, says the Santa Rosa *Democrat*, unless some kind-hearted individual makes a donation to the county. The Supervisors held a consulation and decided that after June 1st no work on the roads would be done until a decision was rendered by the courts as to which road law the county was to be operated under. The workmen were notified that all work stopped except some sprinkling, and the drivers of the water wagons were told that they were taking the chance of getting paid in their own hands if they continued at work after that date. Several are taking the chances.

A suit has been commenced in Alameda county to test the Clark road law. Work was performed in the Piedmont district to the amount of $50 and a bill presented. The Auditor refused to draw a warrant. Mandamus proceedings were commenced at once and several points were raised to cover the entire law.

Personal and Social.

Forty-four children will receive Holy Communion at the Catholic Church to-morrow (Sunday) morning. High Mass will be celebrated by Father Quill, assisted by Rev. Fathers O'Shea and Lidnor, and some special music has been arranged by the choir.

Mrs. Mann and her son Harold of the Bay City are spending their summer season in this valley.

Miss Marcella Glazier, who has been attending the High School for the past three years, left for her home in San Francisco last Saturday morning.

POWER FROM OYSTER SOUP.

How an Ingenious Locomotive Engineer Saved His Train and Passengers.

He was more than an ordinarily accomplished liar for an amateur, and they all knew it when they asked him for a story.

"I can tell you how I once ran an engine and saved a trainload of people with an oyster stew if you want to know, but I don't think of anything more exciting than that," he said apologetically.

"That's good enough," they all declared. "Give us that."

"All right, then, here goes," he said as he settled back in his chair. "I was once engineer on a road that ran for a long distance through the forests of northern Wisconsin, and we were frequently bothered by forest fires. They were particularly bad at the time I speak of. One day I had run through one big blaze, only to find that there was a bigger one ahead. The worst of it was we were low on water, and there was no chance to fill the tank without dashing through the fire ahead of us. I sent the fireman out to see if we had enough to make the run, but he came back and told me the boiler was almost dry.

"I was puzzled for awhile. It was death to all of us I knew to stay there, but how to get out was the question. Suddenly a happy thought struck me. There was a milk car just behind the first baggage, and I made for it. 'How much milk have you got?' I says to the fellow in charge. 'About 40 cans, I guess,' he answered. 'Why do you ask?' 'Never mind,' says I. 'What's that in those cans in the corner?' 'Oysters,' he answered. 'But why do you want to know?' 'Never you mind,' I told him, and then I ordered the other train hands who had come up to see why we had stopped to tote that milk and those oysters up to the engine.

"They did it in spite of the kicking of the milkman, and when they had brought them up I ordered them all chucked into the tank. The conductor came up, too, and declared it was a funny notion to be making oyster stew in an engine boiler, when we were in danger of being burned alive, but I soon convinced him that it was necessary if we did not want to stay there and roast.

"Well, we finally dumped in all the milk and all the oysters and started ahead. You ought to have smelled the steam that came back into that engine cab. It would have made you think of an old time church festival. Whew! How that soup did smell! It made the engine jump, though, and that was all we wanted. We got up a great head of steam in no time, and the way we plunged through that next fire belt was a caution. As we pulled up at the station just beyond I opened up and began to whistle. A great cloud of oyster soup or vapor shot into the sky, of course, and didn't come down till we were far out of sight. Then it settled like a thick fog—oysters, soup and all. Everybody noticed it, of course, and there was a country scientist in the town who was sure it was the greatest phenomenon of the age. It was raining oyster soup up there he was sure, and the next issue of the weekly papers were full of it—not the soup, but the news of it. After the residents up that way had all swallowed it—not the soup, but the story—we told them about it, and that was the silliest looking scientist I ever saw."—Chicago Times-Herald.

A Scotch Beau Brummel.

A Scotch weekly paper named Saint Mungo tells of the costume of some of the gentry who may be seen walking upon the fashionable streets of Edinburgh. One citizen is described as follows: "Mr. Theodore Napier is a well known figure in Edinburgh. He walks along Princes street in a kilt of royal Stewart or Lennox tartan and usually has a red coat with a dark vest, over the front of which he wears an embroidered belt of scarlet silk instead of plain leather. He is gorgeous with dirks, skene dhus, sporrans and other ornaments, and he lets his hair fall to his shoulders under a bonnet that is a cross between Glengary and Balmoral and trimmed with feathers."

The burgher who strides along Princes street, bearing these accouterments, is not a crank. He is a level headed, well composed, thoughtful and wealthy gentleman, standing high in Edinburgh society. Suppose that a man thus apparelled and caparisoned were to walk along our streets! What a time there would be! Within the past few years, or since the introduction of bicycling, golfing and other funny sports, some of the men and women in American cities wear costumes the like of which were not to be seen in the old times. But for all that we doubt whether Mr. Theodore Napier of Edinburgh would greatly enjoy life in this country if he appeared in the public street in the fixtures described by Saint Mungo.

How a Good Bow Is Made.

May I tell the history of my best bow, the dark one nearest the wall? Plaything, the newspaper wise man named the like, in comparison with a five foot bois d'arc (he called it hickory) segment of a hogshead hoop, hight a bow, in the hand of a half naked Sioux buck. It came from a yew tree of Spain to the London workshop, a billet in the rough, but to be split out with care, and not a flaw in it. The bowyer scrutinized it with the connoisseur's knowing eye, found it perfect, laid it up to season. And for five years—dream of it—for five long years that billet passed from stage to stage, slowly hand worked into a bow. Then yet another year it was rested and polished before I could have it. From the strongly wrought horn nock tips to the green plush handle midway between, it is a comfort to look upon. You might well call it a sonnet in wood. A hickory bow, indeed, and an Indian archer! With this yew at 80 yards I shot 9 out of 11 arrows through a gourd eight inches in diameter.—Maurice Thompson in Atlantic.

Giving Him Advice.

"I'm not the man to yield weakly or without a struggle," declared Writely as he walked the floor, intertwining his long fingers or running them nervously through his still longer hair.

"I have written poems, essays, plays, criticisms and stories. I have ranged in my work from the most profound metaphysics to the veriest rough and tumble humor of the day. Disposing of political problems, removing the clouds of mysticism, accounting by natural laws for what has been regarded as supernatural, producing the most beautiful conceits in the realms of romance, writing under the inspiration of propitious muses and showing myself the incarnation of true wit, I have done a vast labor for the good of humanity and have nothing to show for it but dusty piles of unaccepted manuscript. No wonder that ambition is crushed and that the fruits of my endeavor seem as the apples of Sodom."

"Brace up, old man," advised his friend Lettergo. "You are not the first genius to suffer the pangs of the unappreciated. Keep plugging away with a stiff upper lip. Never say die, my man. Get your name before the public and make the people talk about you. I can have your name paraded in every newspaper and magazine that you want, provided you follow my advice."

"Commit some crime, I suppose?"

"No, sir. Advertise your wares. Blow like a side show man. Run your picture with every advertisement. Pay in advance, and the world will learn for the first time that there is such a hidden treasure as yourself."—Detroit Free Press.

Old Cannon.

If the various Grand Army posts of the country were disposed to take advantage of an offer made at the last session of congress, they might materially increase the warlike spirit supposed to pervade every patriotic family, says the Washington Post. The offer was to supply warlike implements, which, if they have outlived their usefulness, will serve as ornaments for post headquarters and might inspire the rising generation with much patriotic fervor. This could be accomplished by accepting the tender of several hundred abandoned cannon and shot and shell which congress has decided to give to any Grand Army post that may apply for them and which are now lying useless and neglected at the navy yards.

These cannon are mostly old style models of engines of war, which might have been considered just the proper thing 30 years or more ago, but which, with the march of progress and the advance of invention, have been placed upon the retired list. Their places have been filled by guns and munitions of war of a more improved type, and as the abandoned articles are valuable only as old metal the government decided that it could put them to no better purpose than to give them to the veterans of the late war, who fought on the Union side with these same guns.

But it is surprising to count up just how few posts of the immense Grand Army have taken advantage of this offer. Since the passage of the joint resolution last winter the records in the office of the secretary of the navy, where such applications have to be filed, show less than 100 from the entire country.

There are still guns on hand for about 700 more posts, yet, strangely enough, the Grand Army has made no effort to provide itself with an armament which, although it would be of little service in time of war, is valuable from an artistic standpoint in time of peace.
